

TERMINALS & CONNECTORS

Weather Pack Environmentally Sealed Connector System

Weather pack terminals and housings offer OEM solutions to harsh environment wire connections and are ideally suited for use in vehicular, marine and agricultural applications where moisture and vibration are present. Nylon housings are indexed for proper insertion of terminals and are use rated from -40°C to 125°C. Terminals, housings and silicone seals are sold separately. Master assortments are also available for this product. Please contact your Pomar sales representative for further information.

Nylon Housings

Product #	Description	
E71AV15791	Female Housing - Single Contact Integral Housing Seal - <i>Use Female Terminals</i>	
E71AV15792	Male Housing - Single Contact - <i>Use Male Terminals</i>	
E71AV15951	Female Housing - Double Contact Integral Housing Seal - <i>Use Female Terminals</i>	
E71AV15952	Male Housing - Double Contact - <i>Use Male Terminals</i>	
E71AV15954	Female Housing - Triple Contact Integral Housing Seal - <i>Use Female Terminals</i>	
E71AV15953	Male Housing - Triple Contact - <i>Use Male Terminals</i>	
E71AVWPT4F	Female Housing - Four Contact Flat Integral Housing Seal - <i>Use Female Terminals</i>	
E71AVWPT4M	Male Housing - Four Contact Flat - <i>Use Male Terminals</i>	
E71AVWPT6F	Female Housing - Six Contact Flat Integral Housing Seal - <i>Use Female Terminals</i>	
E71AVWPT6M	Male Housing - Six Contact Flat - <i>Use Male Terminals</i>	

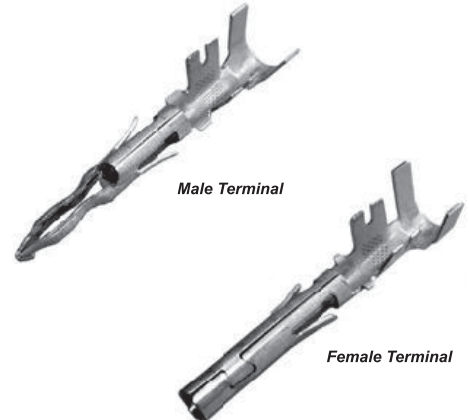

**** Pomar Is Also Able To Supply GM Metri-Pack Series 150, 280 and 480 Terminals. Please Contact Our Sales Department With Your Requirements.****

TERMINALS & CONNECTORS

Terminals

Tin plated brass construction and referenced to OEM part numbers for convenience of ordering. Dual tangs provide a positive lock into housing cavity.

Product #	Description
E71AV14151	20-18 Gauge Female Terminal - OEM Reference # 12089188
E71AV14150	20-18 Gauge Male Terminal - OEM Reference # 12089040
E71AV15937	16-14 Gauge Female Terminal - OEM Reference # 12124580
E71AV15948	16-14 Gauge Male Terminal - OEM Reference # 12124582
E71AV16727	12-10 Gauge Female Terminal - OEM Reference # 12124581
E71AV16738	12-10 Gauge Male Terminal - OEM Reference # 12124587

Silicone Terminal Seals & Cavity Plug

Colour coded ribbed silicone seals are matched to terminal gauge applications and when correctly crimped to the terminal will assure positive position of the seal within the housing cavity in order to provide a weatherproof seal. The cavity plug is used to fill unused housing cavities.

- Product # E71AV20749** 24-22 Gauge Red Silicone Seal - OEM Reference # 12015899
- Product # E71AV14600** 20 Gauge Purple Silicone Seal - OEM Reference # 12089679
- Product # E71AV14323** 20-18 Gauge Green Silicone Seal - OEM Reference # 12015323
- Product # E71AV14152** 16-14 Gauge Grey Silicone Seal - OEM Reference # 12010293
- Product # E71AV14539** 12-10 Gauge Blue Silicone Seal - OEM Reference # 12015193
- Product # E71AV15955** Green Silicone Cavity Plug - OEM Reference # 12010300

Terminal Extractor Tool

Terminal extractor tool for extracting terminals from connector housings. Slide the hollow shaft of the tool over the terminal releasing the retention bars which will allow the terminal to be pulled out of its housing

Product # E7862183

Weather Pack Crimping Tools

Weather pack crimping tools are designed to provide a positive crimp for weather pack terminals. Ratchet mechanism assures a positive crimp every time.

Product # E7862186 Premium Ratcheting Single Stroke Crimp Tool
Crimps 20 Through 14 Gauge

Product # E7861807 Ratcheting Single Stroke Tool With Triple Nested Dies
Providing Crimp For 22-18, 16-14 and 12-10 Gauge

**** Pomar Is Also Able To Supply GM Metri-Pack Series 150, 280 and 480 Terminals. Please Contact Our Sales Department With Your Requirements. ****
