

TRAILER BREAKAWAY SYSTEMS & BRAKE CONTROLLERS

Engager Breakaway System

Features built into case LED battery condition meter which allows a manual test for battery condition. Built in charger allows maintenance charge while plugged into tow vehicle. Suitable for single and dual axle trailers with electric braking systems. Kit includes: heavy duty frame mounting rust-proof plastic case with built in LED test meter, 5 amp/hr battery and breakaway switch with lanyard.

Product # T43913100

Soft-Trac II Breakaway System

Suitable for use on single, dual or tri-axle trailers with electric brake systems. Case and bracket design allow mounting on either jack post or A-frame of trailer. Simple one bolt mounting. Kit includes: rust-proof HD polyethylene plastic case with integral plated steel mounting bracket, 5 amp/hr battery, 12-V charger and breakaway switch with lanyard.

Product # T4352028

Breakaway Service Parts

Product # T4352023 5 Amp/hr Replacement 12 Volt Battery

Product # T4352025 12 Volt Trailer Mounted Battery Charger

Product # T4352010 Replacement Breakaway Switch With Lanyard & Pull Pin

Brake Controllers

Quick plug harness connections and digital displays offer current state of the art brake controller solutions for electric trailer brakes up to 4 axles (8 brakes).

Product # T4351130 Dual access accelerometer mechanism senses vehicle slowing and self adjusts braking level. Self-leveling and multi angle mounting. Manual brake lamp override and fully compatible with electronic tow vehicle systems.

Product # T4351120 Timed electric digital display controller features fully adjustable ramp up time, provides manual and automatic braking action. Solid state electronics requires no levelling when mounting. Compatible with electronic tow vehicle systems.
