

SWITCHING DEVICES

Solenoids

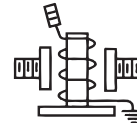

Single circuit switching application solenoids rated at 12 volts DC designed for heavy duty switching applications such as motor turn on-off control. Choose from intermittent or continuous, insulated or grounded and number of studs. Unless otherwise stated, all solenoids are to be mounted in an enclosed dry environment. Battery power feed connections are 5/16-24 UNF studs and coil connections are 10-32 UNF studs.

Intermittent Duty, SPST, Grounded, Normally Open Off/On Single Circuit, 4 Terminals, Phenolic Housing

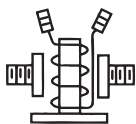

Product # E7524021SR

Intermittent Duty - SPST - Grounded - Normally Open Off/On Single Circuit - 3 Terminals - Steel Housing

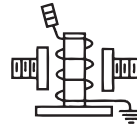

Product # E7524044

Continuous Duty - SPST - Insulated - Normally Open Off/On Single Circuit - 4 Terminals - Steel Housing

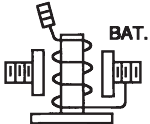

Product # E7524059SR

Continuous Duty - SPST - Grounded - Normally Open Off/On Single Circuit - 3 Terminals - Steel Housing

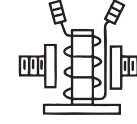

Product # E7524106

Continuous Duty - SPST - Insulated - Normally Open Off/On Single Circuit - 3 Terminals - Steel Housing

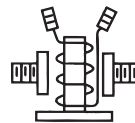

Product # E7524115

Continuous Duty - SPST - Insulated - Normally Open Off/On Single Circuit - 4 Terminals - Plasticized Coating To Seal Against Moisture & Dirt

Product # E7524117

Continuous Duty HD 200 Amp Rated - SPST - Insulated - Normally Open Off/On Single Circuit - 4 Terminals - Steel Housing

Product # E7524143

Push / Pull Switches

Product # E752414 Medium Duty 2-Position (Off-On) With Plastic Pull Knob Rated 15 Amps @ 12 Volts - Two Screw Terminals

Product # E755066 Heavy Duty 2-Position (Off-On) With Chrome Pull Knob Rated 10 Amps @ 12 Volts - Three Screw Terminals Energizes Two Circuits From A Common Hot Feed

Product # E75102HD Heavy Duty 2-Position (Off-On) Red Illuminated Pull Knob Rated 20 Amp @ 12 Volts - Double Wire Pigtail Connection
