

# DASH FANS & BOOSTER PUMP

## Chrome Dash Fan - 12 Volt

12 volt two speed 2 amp chrome finish dash fan with wire guard, no switch. All metal construction can be dash, overhead or side wall mounted. 8.75" H x 5.3" D x 7.5" W.

Product # V80MF126CH

## Black Finish Dash Fan

Available in 12 or 24 volt with two speed 2 amp black plastic guard with black finish metal base, hi-lo toggle switch and self locking swivel. Can be dash, overhead or side wall mounted.

Product # V80MF126EC 12 Volt; 8.75" H x 5" D x 7.5" W

Product # V80MF246BK 24 Volt; 8.75" H x 5.3" D x 7.5" W

## High Flow Coolant Booster Pump

High efficiency coolant flow circulation pump used in closed loop heating or cooling applications. Effectively boots circulation of coolant when long line runs or elevations above engine water pump are encountered preventing cavitation.

### Pump Specifications:

- Flow Rate 7.1 GPM At Pressure of 40"
- Max 1.5 Amp At 12 Volts
- Max System Pressure 100 PSI
- Max Operating Temperature 220°F

**\*\* Pump Is Not Self Priming And Must Be Mounted At Lowest Position In System \*\***

Product # V82TC04400
