

# TITAN FUEL TANKS

## Titan Fuel Tanks

Titan Fuel Tanks offer up to double the diesel fuel capacity of your GMC/Chevrolet, Ford or Dodge diesel pick-up.

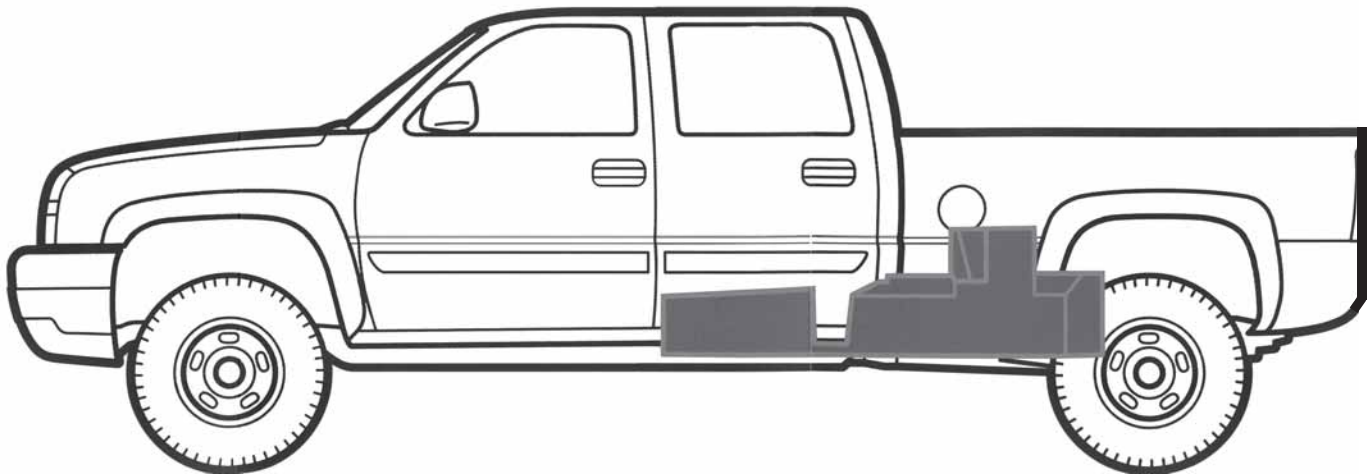

### Features:

- Made of high density cross-linked polyethylene (XLHDPE) which is corrosion proof, durable and light weight. Most tanks weigh about 45 lbs. Superior strength to OEM tanks.
- No vehicle modifications required - mounts in stock location. No loss of cargo space.
- Works with factory fuel gauges
- Stock OEM appearance
- Bio-Diesel compatible
- All necessary installation parts included in kit
- Off road protective shield available
- Technical support line
- 5 year limited manufacturer warranty

### Applications:

- GMC/Chevrolet light diesel pick-up trucks - Duramax 2500 and 3500 series from 2001 to current extended and crew cabs with long or short cargo box. Four tank configurations from 43 US gallons (165 litres) to 62 US gallons (234 litres), dependent upon vehicle configuration.
- Ford light diesel pick-up models F250 and F350 - Powerstroke diesel engines from 1999 to current. Also super series tank in F450 crew cab long bed 2008 and up model year with adaptor kit. Five tank configurations from 47 US gallon (177 litre) to 67 US gallon (253 litres) capacities, dependent upon vehicle configuration.
- Dodge Ram light diesel pick-up models 2500 and 3500 series with Cummins diesel engines, for quad cab with long bed 2003 to current, 55 US gallon (208 litre) capacity.
