

FLEXIBLE BULBSEAL WEATHERSTRIP

Duplex seals combine dense rubber, wire and sponge rubber in a single profile. Patented wire carrier is contained within the extruded rubber grip section to ensure a weather tight seal on the mounting flange. Sponge rubber bulb effectively seals out water, dirt, air, and noise. Use for sealing of doors, hoods, decklids, tailgates, windows, etc. Standard stock is black.

1301 End Mount Bulbseal

Sold in rolls of 100 FT.

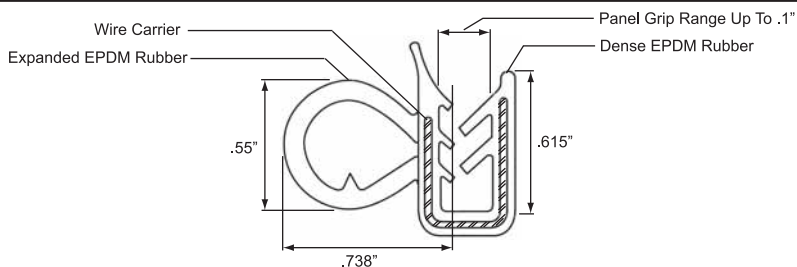

Product # R22X1301BK

1302 Side Mount Bulbseal

Sold in rolls of 100 FT.

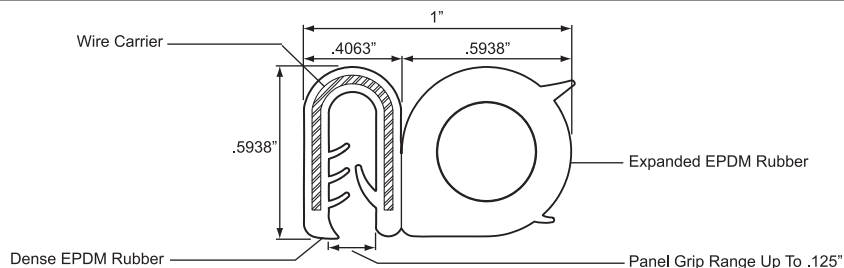

Product # R22X1302BK
